

HUGH MCNEIL

RVEZY User

Hi,

I have been a GPS TRACKING CANADA customer for almost 2 years now. I am not a big corporate client and can say I am very pleased to say I still get 1st class personal service.

I have been renting my RV out to people from around Canada on RVEZY. It's like an AIR BNB for RVs. Most of my clients are great and are responsible in their treatment of our RV. But we have had A FEW who have done significant DAMAGE to the RV. We are still working out one individual claim over \$7000.00.

I can see if people are speeding or braking hard a lot and if they are going down remote roads or off road. I DIDN'T realize when I first hooked up the TRACKER how much peace of mind it would give me. I'm not worrying or guessing where my unit is or if it's abandoned or disabled. Also, it settles disputes when clients are driving irresponsibly. I have the proof.

I recommend this company for two reasons. One the personal service and two the World Class Network and Technical Support and Equipment.

So, this is my personal endorsement. I tell people on RVEZY about your service and hope others will try your service.

Sincerely,
Hugh McNeil
